## 1 (Re)Vendor Fees

The (Re)Vendor Fee is a fixed remuneration for Vendors and Revendors which is charged by the contractual partner of Boerse Stuttgart for the right to redistribute information in accordance with the detailed provisions of the Market Data Dissemination Agreement for Vendors / Revendors.

The (Re)Vendoren Fee real-time is charged in case a customer obtains the information of the Boerse directly via the data feed of the Boerse and is thus directly connected to the data distribution platform (SID) of the Boerse and does not use the data exclusively internally. In the case of an indirect purchase of the information in real-time, the (Re)Vendoen Fee real-time will not be charged.

The (Re)Vendor Fee does not apply to Vendors / (Re)Vendors who have exclusively ordered a non-display license for the use of information. The (Re)Vendor Fee real-time includes the Distribution Fee delayed. In case of exclusive redistribution of information to a service provider of the Vendor, no (Re)Vendor Fee real-time is due.

### 1.1 Delayed Data (Re)Vendor Fees

Package	Stuttgart Stock Exchange		TradeRebel	
	Product-Code	Price €/month	Product-Code	Price €/month

Basic package	SMDBE	200,00

<sup>1</sup> The scope of the master data packages can be found in the current valid detailed specification. The specification is available on request from the department Information Products.

### 3 Non-Display Information Usage

#### 3.1 Explanation of the non-display categories

The non-display license fees for the individual categories of each Non-Display Information usage are to be paid additively depending on the respective usage.

Boerse Stuttgart has defined the following categories for Non-Display Information usage:

##### 1. Trading activity

The category trading activity covers all Non-Display Information usage related to the trading business. Trading activity thus includes semi-automatic or automatic order and quote generation, pricing, order pegging, the use of the information as a reference price for trading purposes, smart order routing, order management, execution management, market making, the "black box" trading, algorithmic trading, as well as program trading and the operation of a trading platform.

For the category trading activity it is irrelevant whether the counterparty of Boerse Stuttgart operates own or foreign trade, broker or agent and / or operates a trading platform.

##### 2. Index calculation

The category index calculation includes the use of real-time information for the purpose of calculating one or more indexes that are redistributed either internally or externally. The calculation of key figures such as the NAV or iNAV does not fall under the category index calculation.

##### 3. Non-Display Information usage in other applications

The Non-Display Information usage category in other applications includes use for purposes other than trading activities and / or index calculation, e.g. Risk management, profit-loss calculations, portfolio valuation, quantitative analyzes, fund administration, portfolio management.

#### 3.2 Prices of the Non-Display Categories

Category	Package	Stuttgart Stock Exchange		TradeRebel	
		Price €/month	Product-Code	Price €/month	Product-Code
1. Trading activity	Price data: Pre & Post Trade	1.100,00	SNDH-G	1.100,00	TRNDH-G
	Price data: Pre-Trade	792,00	SNDH-V	792,00	TRNDH-V

	Price data: Post-Trade	198,00	SNDA-N	198,00	TRNDA-N

## 4 Data Fees professional usage (B2B)

Data Fees are only charged for the usage of real-time Information.

No data fees will be charged for delayed Information of Boerse.

Realtime Information (SID Source XU) may only be disseminated to a closed user group in accordance with Boerse Market Data Dissemination Agreement for Vendors / Revendors, respectively.

Price data	Portal: Push mode	SB2CARDPSH	Page impressions <sup>4</sup>	TRB2CARDPSH	No charge until further notice

<sup>2</sup> The remuneration for this Information Product does not comply with Article 9 (1) of the Delegated Regulation (EU) C (2016) 2860 of 18.05.2016 per user, since the associated expenditure for billing per user is dependent on the extent of the data usage by the Private persons, in proportion to a reasonable remuneration per user.

<sup>3</sup> The cumulative number of page impressions of the respective homepage or, if possible and requested by the customer, the number of page impressions of the sub-area of the homepage on which the Information is displayed is used as the basis for the respective price levels. If a determination of the page impressions of the possible sub-area on which the Information is displayed is not possible or desired, the cumulative number of page impressions of the homepage is the basis for assessment. Please refer to the table in section J. Appendix; page impressions for portals. The basis for this is either IVW statistics or the statistics of the respective webmasters.

<sup>4</sup> The cumulative number of page impressions of the respective homepage, on which the information is displayed, is used as the basis for classification into the respective price levels. The basis for this is either IVW statistics or the statistics of the respective webmasters.
